

Name:

Quiz 2

Choose The Correct Answer:

- 1) All The Following Teeth Have No Predecessors Except :
- A. Permanent Maxillary And Mandibular Premolars
 - B. Permanent Maxillary And Mandibular First Molars
 - C. Permanent Maxillary And Mandibular 2nd Molars
 - D. Permanent Maxillary And Mandibular 3rd Molar
- 2) Successor Of Upper First Deciduous Molar Is
- A. Upper First Permanent Molar
 - B. Upper Second Premolar
 - C. Upper First Premolar
 - D. Upper Second Permanent Molar
- 3) Term Trifurcation Indicate The :
- A- Point Where 3 Line Angles Meet
 - B-Point At Which 3 Occlusal Grooves Meet
 - C. Point At Which 3 Roots Divide
 - D. Point At Which 3 Ridges Meet
- 4) Surface At Which Each Tooth Meets Its Neighbors In The Dental Arch Is The
- A. Mesial Surface
 - B. Distal Surface
 - C. Proximal Surface
 - D. Proximate Surface
- 5- Which Tooth Of The Following Likely Have 2 Roots...
- A- Mandibular First Premolar
 - B Maxillary First Premolar
 - C. Maxillary Canine
 - D. Maxillary First Molar
- 6- Which Of The Following Is Example Of A Line Angle Of An Anterior Teeth ?
- A. Mesio Labio Incisal
 - B. Mesio Distal
 - C. Disto Labio Incisal
 - D. Disto Lingual
- 7- According To 2 Digit System 55 Refers To .

A
C
C
B
d
B
d
d
C
C
B
C

- A. Upper Right Second Premolar
- B. Upper Right Second Deciduous Molar
- C. Lower Left Permanent First Molar
- D. Upper Left Second Deciduous Molar

8- In Universal System Tooth # 30 Is Which Of The Following...

- A-Left Mandibular 1st Premolar
- B. Right Maxillary 1st Premolar
- C. Right Maxillary Central Incisor
- D. Right Mandibular First molar

9- In The Universal Numbering System Which One Of The Following Is Successedaneous Tooth?

- A. #31
- B. # 18
- C.# 3
- D.# 29

10- Which One Of The Following Ridges Is Not Found In All Posterior Teeth :

- A - Marginal Ridges
- B. Triangular Ridges
- C. Transverse Ridge
- D. Cusp Ridge

11- Occlusal Surface Of Mandibular First Molar Have How Many Cusps ?

- A- Three
- B. Four
- C. Five
- D. Six

12- Tubercle Of Carabelli Is Found On Which Aspect Of The Crown ?

- A. Distolingual
- B. Mesiolingual
- C. Distobuccal
- D. Mesibuccal

13- Union Of Two Triangular Ridges Produce A Single Ridge Which Is Called :

- A. Cusp Ridge
- B. Marginal Ridges
- C. Transverse Ridge
- D. Labial Ridge
